This is a formal summary and time-stamped public record based on two submitted affidavits:

1. FBI Obstruction and Federal Negligence Affidavit (July 24, 2025)

2. Full Patterned Abuse Affidavit A-R (Ongoing, 2023-2025)

---

Key Facts:

- Repeated legal, emotional, and digital abuse by ex-husband Marcel Roy

- State police and Berlin officials ignored evidence of rape, assault, gang connections, and pet killings

- Affidavits submitted to FBI, DOJ, AG, civil rights orgs - met with silence or dismissal

- Ongoing digital surveillance, stalking, tampering with court communication and motion files

- Child endangerment and false allegations weaponized through DCYF

- Shadowbanning, community smear campaigns, and financial sabotage

---

Spiritual Confirmation - July 26, 2025:

A trusted spiritual intelligence warned me that harm would be attempted once my home security

system went down.

On July 27, that exact thing occurred. This is now recorded as proof of ongoing spiritual warfare and coordinated suppression.

Community Smear & False Claims:

False rumors were spread that I left my child alone with a known predator. This is 100% false.

I've never left Noah alone with any unsafe individual. He has no babysitters. I removed him immediately when I sensed danger.

---

Digital Suppression:

- Account shadowbanned despite daily new followers
- Monetization blocked without explanation despite meeting criteria
- View counts throttled below 300 even on viral topics
- Affidavit content flagged, removed, or hidden from visibility

---

Reflection - Survivor's Statement:

So much has happened - more than anyone should ever have to survive. And I'm still here. Still standing. Still documenting. Still protecting my son through every step.

She had a name, and it was Sora.
